Actions for incoming calls

Accept call: Pick up handset, press to pick up call in hands-free mode.

Reject call: Press .

Call diversion: Press before accepting the call, enter telephone number for the call diversion and confirm by pressing again.

Actions in idle state

Dialling: Enter telephone number; to dial by name, long press to change to characters and enter name, use down key to select desired name if necessary, pick up handset to initiate call.

Call completion on missed call: Press R, if necessary press down key to select desired call, pick up handset to initiate call.

Re-dial: Press , select entry with down key if necessary and pick up handset to initiate call.

Send message: Enter telephone number or name, press menu key in the centre, select send message and enter the desired text, send by pressing menu key.

Set call diversion: Press menu key, select user setup, select call diversion by entering the target number under the required condition. Press Esc then the menu key to save the setting.

Set presence: Press menu key, select user setup and presence. Set required activity and add note as necessary.

Actions during call

Change to hands-free: Keep pressed and hang up.

Terminate hands-free: Pick up handset or terminate call by pressing .

Consultation: Press R, select number or name for consultation call. Terminate consultation with and return to initial call.

Switch between calls: Press R and set up second call. Double press R to switch between calls. Press to terminate calls.

Transfer: Press R and set up second call. Hang up to connect the two calls to each other.

Conference: Set up two calls using the R key and switch to conference with menu key. Press menu key again to separate calls or hang up to terminate.

Quick transfer: Press R and dial target number required. If you hang up before the call is initiated, the caller will hear the ring- tone until the person being called picks up the call.

Blind transfer: Press and set up second call. Press once more to connect calls together without the callers being put in the wait queue.

Actions when initiating a call

Call completion on busy subscriber: Initiate call, press the menu key when you hear busy tone or call waiting signal, then select recall. The telephone will indicate when the subscriber is available again.

Call completion on no reply: Initiate call, press the menu key while hearing the ring tone, and select recall. The telephone will indicate when the subscriber is active again.
