CAMERA HOUSING FOR INSTALLATION IN AGGRESSIVE ENVIRONMENTS

IP66 IP67 IP68

NXM + VIPNX

NXM + VIPNX + NXPTH + NXFWBT + NXWBPTH1

DESCRIPTION

The NXM housing, entirely constructed from AISI 316L electropolished stainless steel, is designed to operate in specialist environments such as marine, industrial, chemical and where the external conditions are highly corrosive.
In order to prevent the formation of dust deposits, the housing can be equipped with a flange designed to create an air barrier in front of the glass.
The air, normally drawn from a compressor, can be purified by the optional filter group.
The options of wiper and water pump ensure a constant cleaning of the front window
The NXM housing can be installed on NXPTH Pan & Tilt head, to obtain a complete positioning system.
