Introduction

The AWK-3262A Series 3-in-1 industrial wireless AP/bridge/client is designed to meet the growing need for faster data transmission speeds through IEEE 802.11ax technology for aggregated data rates of up to 1.775 Gbps. The AWK-3262A is compliant with industrial standards and approvals covering operating temperature, power input voltage, surge, ESD, and vibration. The two redundant DC power inputs increase the reliability of the power supply, and the AWK-3262A can be powered via PoE to facilitate flexible deployment. The AWK-3262A can operate concurrently on both the 2.4 and 5 GHz bands and is backwards-compatible with existing 802.11a/b/g/n/ac deployments to future-proof your wireless investments.
