Edge 1025

Product Snapshot

Proxim's Edge 1025 is the most versatile small wireless broadband solution available.

One device, multiple uses; whether you need a Point to Point endpoint, Multipoint CPE, or MultiPoint Base Station[1], the Edge 1025 fits the bill.

- Wide Band 5 GHz Radio
- 4x4 MIMO radio delivering up to 380 Mbps[2]
- Advanced QoS for quad-play applications
- AES 128 encryption and Radius authentication
- Full tilt and swivel mounting kit included.

Powered by WORP®

Proxim WORP enables the most efficient wireless broadband access possible in a packet-based network.

Advanced QoS controls, committed interface rates, latency controls, IGMP snooping, and native multicast support allow granular service level management and the best video performance available in this product class.

Advanced Interference Management

Proxim ClearConnect™ combines multiple dynamic technologies and delivers the best interference management solution available.

Flexible Antenna Options

Includes an integrated 15 dBi 35-degree dual-polarity antenna and offers external connectors for extended range and MIMO 4x4 configuration options.

Smartphone Configurator

Proxim's BlueConnect mobile app enables fast and efficient setup, monitoring, and troubleshooting.

Rugged Reliability

IP67 rated metal enclosure to ensure years of reliable service in harsh environments, including high winds, high salt, and temperature extremes.

1.   Full MultiPoint BaseStation Functionality requires the MP-1025-BSU-32SU-UPG upgrade license.

2.   4x4 MIMO requires an external antenna and can be configured as 4x4:2 for redundancy or 4x4:4 for higher throughput or smaller channel.
