

100 Mbit/s & 1 Gbit/s Multimode SFP Transceivers

100 Mbit/s & 1 Gbit/s Multimode Fibre Optic Transceivers

- **Effective short range communication**
 - Cost-effective installations over 50/125 or 62,5/125 μm fibre cables
 - Real time monitoring of the SFP using DDM, integrated with WeOS
 - Available in 100 Mbit/s & 1 Gbit/s Ethernet and variants with BiDi-functionality
- **Robust and reliable**
 - Thoroughly tested to high standards
 - Wide operating temperature range, -40 to +85°C
 - Functionality validated for mission critical applications
- **Full WeOS support**
 - Transceivers and WeOS developed in symbiosis
 - All functionality available
 - Technical support and know-how

The Westermo range of Fast Ethernet and Gbit/s multimode SFPs offers cost-effective solutions for fibre installations in mission-critical OT networks. These models can use fibres with a core of either 50 or 62.5 μm , depending on the required range and fibre availability. With fully integrated DDM functionality in WeOS, it's possible to monitor parameters such as temperature, TX/RX power, and voltage, ensuring optimal performance.

The range includes options for 100 Mbit/s and 1 Gbit/s, ensuring compatibility with most of Westermo switches, routers, and modems. The Fast Ethernet and 1 Gbit/s transceivers are compatible with the Lynx, RedFox, and ODW/MCW/SDW/LRW platforms with multiple options varying from 850 nm to 1550 nm.

All Westermo's SFP transceivers are thoroughly tested in accordance with high demands. Each model has gone through rigorous environmental testing, to ensure that it can perform according to specification even in the harshest environments. Furthermore, functionality is validated and pushed to the limit, securing availability and reliability in mission critical applications.

WeOS, the Westermo operating system, is designed to meet the toughest requirements, and full support for all offered transceivers is a crucial aspect. All features of WeOS are extensively tested and verified to be fully supported on any WeOS device with a Westermo transceiver installed.
